B-4 Culinary Arts and Hospitality District Rezoning (Capitol Landing Road from Colonial Parkway to Merrimac Trail)**

BACKGROUND

The area of the City that encompasses the Northeast Triangle offers the opportunity to advance several priority policy issues identified in City Council's Biennial Goals, Initiatives, and Outcomes (GIOs). Following the re-allocation of capital improvement funds by City Council in February 2016, the City Manager has worked with staff to review past planning efforts, the Comprehensive Plan, and comparative incentive plans and zoning districts to establish an implementation plan for the Northeast Triangle Redevelopment and Design Plan, which is outlined below.

The redevelopment and design efforts in the Northeast Triangle will impact the following GIO policies:

- Follow the guidance from the Northeast Triangle Focus Group to bring new life to the area
- Make progress toward the reconstruction of the Bypass Road/ Capitol Landing Road intersection

- Support private sector redevelopment projects in the Northeast Triangle
- Identify redevelopment properties and propose a property assembly plan
- Develop incentive plans for redevelopment properties under City ownership
- Develop a redevelopment incentive plan with/without enterprise zone approval
- Actively pursue underused and blighted commercial properties
- Implement the Parkway Drive sidewalk project
- Develop a food truck policy/ordinance
- Implement the Second Street underground utility project
- Beautify entry corridors
- Purchase land on Queens Creek for a new Capitol Landing Park
- Improve safety and livability of the Merrimac Trail corridor
- Promote tourism economy development
- Support existing businesses
- Support development of businesses that increase overnight activity
- Implement pedestrian connections and crossings
- Implement bicycle friendly community improvements

Several projects are in the Capital Improvement Plan for funding in FY17:

- Parkway Drive sidewalk project (Capitol Landing Road to Wyndham Plantation)
- Second Street underground utility project
- Northeast Triangle Redevelopment and Design Plan

Staff is advancing the following initiatives in a coordinated effort:

- Revision of the demolition grant program – presented to EDA in June and approved by City Council July
- Establishment of a Culinary Arts and Hospitality Zoning District in the Capitol Landing Road commercial area – presented to Planning Commission in August, Planning Commission public hearing in September, presentation to EDA in September, and City Council public hearing in October
- Establishment of zoning criteria for food trucks in coordination with the new Culinary Arts and Hospitality District (same schedule).
- Establishment of a Tourism Zone Tax Incentive Program – presented to EDA in September and City Council in October.
- Establishment of a Landscape and Façade Improvement Program –presented to EDA in September and City Council in October.

The appropriated \$150,000 for the Northeast Triangle Redevelopment and Design Plan will be used to accomplish the following:

- Corridor Capital Improvement and Landscape Design Plan (\$50,000)
- Capitol Landing and Bypass Intersection Design (\$50,000)
- Landscape and Façade Incentive Program Funding (\$50,000)

The three cases in this memorandum will create the B-4 Culinary Arts and Hospitality District, detailed regulations for food trucks, and rezone the Capitol Landing Road corridor from B-2 to B-4 from the Colonial Parkway to Merrimac Trail.

PCR #16-008: B-4 CULINARY ARTS AND HOSPITALITY DISTRICT

The Comprehensive Plan's Vision Statement for the Northeast Triangle Planning Area "... recognizes that this is a diverse section of the City of Williamsburg with both residential neighborhoods and commercial districts that offer opportunities for new development and redevelopment." More specifically, the Comprehensive Plan recommends that the existing *Corridor Commercial* land use designation remain between the Colonial Parkway and Merrimac Trail. The proposed B-4 Culinary Arts and Hospitality District further refines the *Corridor Commercial* land use through the establishment of a "corridor commercial" area focused on the culinary arts and hospitality industries.

The Statement of Intent for the B-4 District states:

This district is established to encourage the location of businesses related to the culinary arts along the Capitol Landing Road corridor between the Colonial Parkway and Merrimac Trail. To this end, restaurants, brewpubs, micro-breweries, micro-distilleries, food trucks and the like are allowed by right. To complement the culinary arts, hotels and other tourism related uses are also allowed.

To emphasize the culinary arts focus, "Culinary arts uses" are grouped together in the permitted use section as follows:

- a. Restaurants.
- b. Bake shops.
- c. Micro-brewery, micro-distillery, micro-winery and/or micro-cidery, with a capacity of not more than 15,000 barrels per year.
- d. Brew pubs.
- e. Food trucks in accordance with section 21-622.
- f. Schools for the culinary arts.

The B-4 District will be the only zoning district where micro-breweries, micro-distilleries, brew pubs and food trucks are allowed by right.

Added as a new permitted use are "studios and workshops for artists and artisans." This use is allowed as a special exception approved by the Board of Zoning Appeals in the LB-2 Limited Business Neighborhood District and RS-3 Single-family Dwelling District. Allowing this as a by-right use in the B-4 District is intended to encourage uses which will complement the culinary arts.

A number of permitted uses that are allowed in the existing B-2 District for this area have been deleted in the proposed B-4 District. These are: churches, fitness studios, fitness centers, funeral homes, parking lots as a principal use, repair services and businesses, and service stations. These changes are recommended to allow uses that are compatible to culinary arts and hospitality uses.

A number of special use permit uses that are allowed in the existing B-2 District for this area have been deleted in the proposed B-4 District. These are: townhouses, automobile rental agencies, car washes as a principal use, contractor's establishments, lighted athletic fields, miniature golf courses, ministorage warehouses, and newspaper printing and publishing facilities. These changes are recommended to allow uses that are compatible to culinary arts and hospitality uses.

The maximum density allowed for residential uses remains at 14 dwelling units per net acre, the same as allowed in the existing B-2 District. "Multifamily dwellings" is the only residential use allowed, requires a special use permit, and is limited to not more than 67% of the gross floor area on any lot. Multifamily dwellings must be in conjunction with new development or major redevelopment of a property, and cannot reuse existing buildings. This is the same restriction contained in the existing B-2 District.

PCR #16-009: FOOD TRUCK REGULATIONS

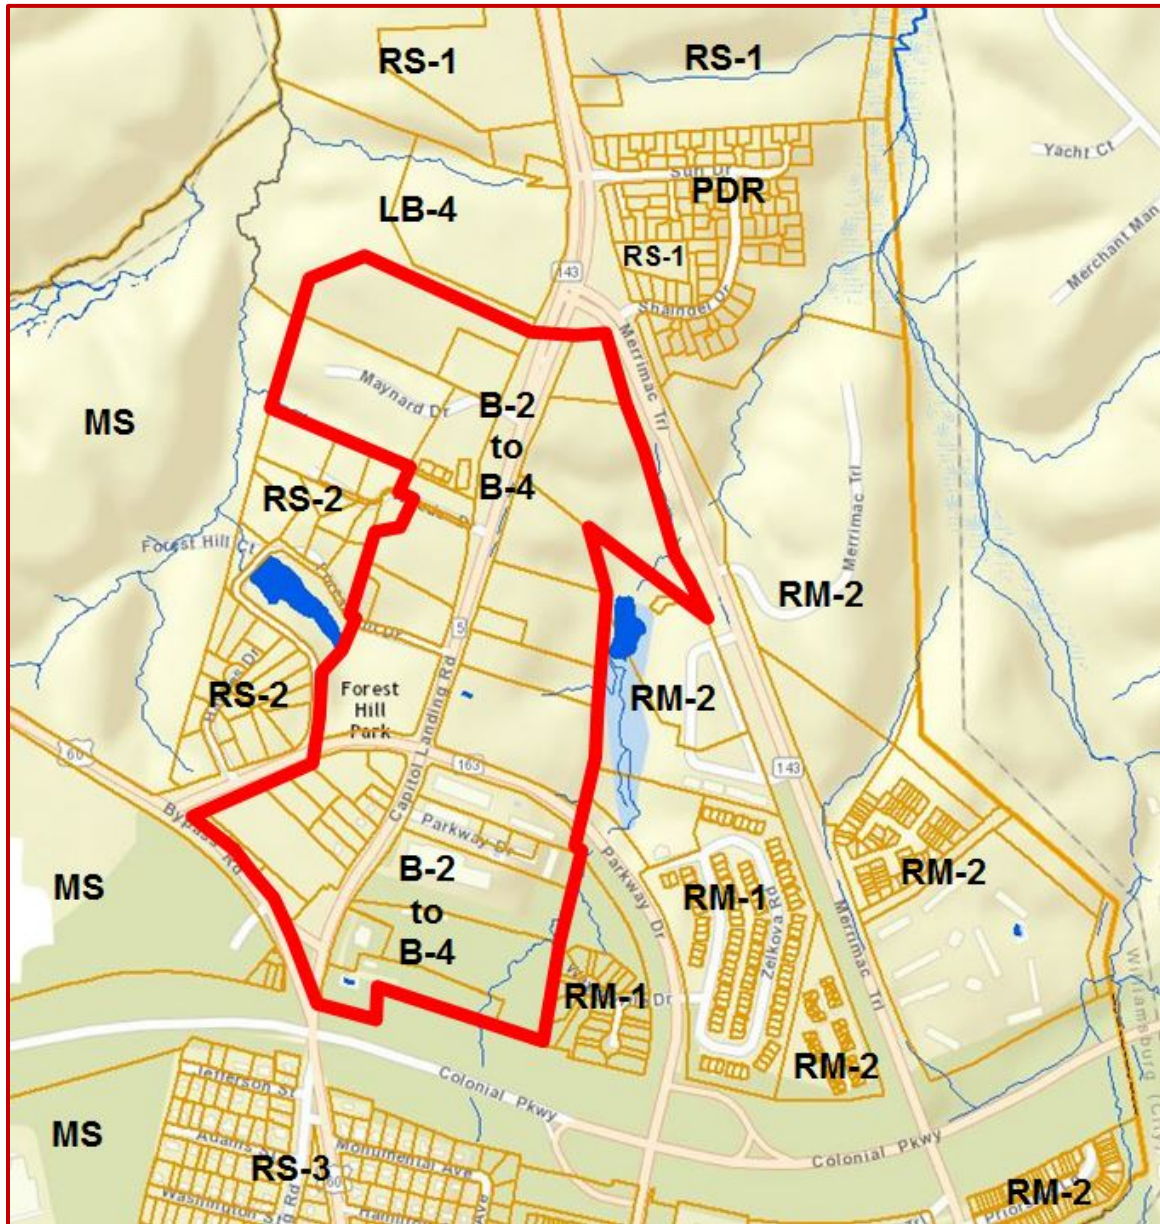

The B-4 Culinary Arts and Hospitality District will be the City's first zoning district that allows food trucks on private property (food trucks are currently only allowed in conjunction with a special event regulated by Chapter 9, Article II of the Williamsburg Code). Food trucks are listed as a permitted use in the B-4 District, in accordance with the regulations contained in the proposed Sec. 21-622. Food Trucks, which is in the Supplemental District Regulations section of the Zoning Ordinance [Article IV].

The operator of a food truck is required to own and/or operate a properly licensed restaurant located in a LB-1, LB-2, LB-3, B-1, B-2, B-3, B-4, ED, ED-2, CW, MS or PDC zoning district, or be in partnership with the owner and/or operator of said restaurant. Some of the other major regulations for food trucks which are detailed in Sec. 21-622 are:

- Food trucks can operate only on developed and occupied property and only during the hours when the business establishment on the premises is operating.
- Food trucks, unless otherwise approved, must be removed from the site when the on-premises business closes for the day.
- Food trucks must be parked at least 100 feet from any residential dwelling.
- Food trucks cannot be parked in or operated from a public street right-of-way.

PCR #16-010: B-4 CULINARY ARTS AND HOSPITALITY DISTRICT REZONING

It is proposed to rezone approximately 76 acres on Capitol Landing Road from B-2 Corridor Business District to B-4 Culinary Arts and Hospitality District. This is the existing B-2 District along Capitol Landing Road from the Colonial Parkway to Merrimac Trail, and is detailed on the map below.

 - a. Where 40 percent or more of the frontage on one side of the street within the same block is improved with buildings, no building on that side of the street within the same block shall be required to have a front yard greater than the average front yard of the existing buildings. However, when there are buildings on the adjacent lots on both sides, the front yard shall not be required to be greater than the average of the front yards of the buildings on the adjacent lots. The side line of a building on a corner lot shall not be a factor in these calculations.

 2. Additional landscaping and/or screening is proposed that will provide screening equivalent to that required by this section.

Sec. 21-360.8. Height.

The height requirements in the culinary arts and hospitality district B-4 are as follows:

- c. Cupolas, spires and steeples may be erected to a height of 90 feet above grade, and may extend higher if a special exception is approved by the board of zoning appeals in accordance with section 21-97(f). Sec. 21-360.9. Landscaped open space and recreation area.

(a) At least 20 percent of the gross lot area of a lot in the culinary arts and hospitality district B-4 shall be landscaped open space. (1) *Multifamily dwellings:*

- a. A minimum of 200 square feet of recreation area shall be provided for each dwelling unit in a multifamily development of more than 25 dwelling units. Such areas shall be improved to provide active recreational opportunities for the residents of the development. Any playground equipment and other improvements specified on the approved site plan shall be installed prior to the issuance of certificates of occupancy, and shall be maintained in accordance with the approved site plan.
- b. If the proposed project is designed and approved for development in two or more phases, the playground equipment and other improvements may be installed in phases, provided that such phasing plans are approved with the approval of the site plan. In the cases of phased development, the playground equipment and other improvements for each phase shall be installed prior to the issuance of certificates of occupancy for the units in each phase.
- c. The planning commission may allow the developer to delay the installation of the playground equipment and other improvements until the development is completed, provided that an irrevocable bond or other surety acceptable to the city attorney, assuring full, timely and satisfactory completion, is posted prior to the issuance of any certificates of occupancy, and provided that the amount of the bond or surety is of an amount equal to the estimated costs of purchasing, constructing and/or installing the playground equipment and other improvements in accordance with the approved site plan. The playground equipment and other improvements shall be installed and/or constructed within 60 days following the issuance of the final certificate of

occupancy for the development, unless modified plans for the playground equipment and other improvements are approved by the planning commission in accordance with subsection d. below during the 60-day period, in which case the installation shall be completed within 60 days from the date of the planning commission approval.

- d. The developer may modify the playground equipment and other improvements approved in the final site plan if such modification is approved by the planning commission, provided that the modified playground equipment and other improvements provide active recreational opportunities for the residents of the development.
- e. Recreation areas need not be concentrated in one central location but may be interspersed throughout the development, provided that the areas are to be reasonably accessible by pedestrians residing in all units. The minimum width for a recreation area shall be 25 feet. Recreation areas may be counted as a portion of the required landscaped open space. Recreation areas may be dedicated to the city (subject to acceptance by the city).
- d. The developer may modify the playground equipment or other improvements approved in the final site plan if such modification is approved by the planning commission, provided that the modified playground equipment and other improvements provide active recreational opportunities for the residents of the townhouse development.
- e. Recreation areas need not be concentrated in one central location but may be interspersed throughout the townhouse development, provided that the areas are to be reasonably accessible by pedestrians residing in all units. The minimum width for a recreation area shall be 25 feet. Recreation areas may be counted as a portion of the required landscaped open space.
